LITTLE ONES BECOME BIG ONES

Many of our friends ask us why we put forth such small accounts as we do to get small accounts. Many of which started with deposits of only one dollar. It is true that such accounts do not begin to repay the cost of handling.

However, we are building for the future. These small accounts will grow. Many of them will in time become very profitable. The small depositor of today will be the large depositor of tomorrow. The boy who opens the dollar savings account will in a few years be a business man with a valuable commercial account. We want the youngsters to get in the habit of banking with us now, so that they will stay with us during years to come.

Terms—One-third of the purchase money in cash and the residue in two equal installments of one and two years after day of sale. The deferred payments to be evidenced by notes bearing interest from day of sale and title to the property to be retained until all of the purchase money is paid. Lumber Back to Normal.

LUMBER has reached a price-level where its value bears the true and proper proportion to the value of the products you farmers raise and sell. In other words, prices today on lumber are consistent with prices on farm products.

THERE'S NOTHING MYSTERIOUS about it—just the old law of supply and demand—and a willingness on our part to play fair with our customer friends by reducing our prices to a point where you can afford to buy.

RIGHT NOW your problem may be a barn, a shed or other building necessary to help you do your work better, more quickly or more economically. Or it may mean a new home, or repairing and remodeling the old one.

BRING YOUR PROBLEM TO US—Let us show you the facts. We have many plans and suggestions, some of which you can probably use, and our friendly counsel and assistance won't obligate you in any way.

Come in the first convenient day and let's talk it over.
